

**LOCKHEED MARTIN** 

September 12, 2000

Mr. Gerard J. Thibeault  
Executive Officer  
California Regional Water Quality Control Board  
Santa Ana Region  
3737 Main Street, Suite 500  
Riverside, CA 92501-3339

Dear Mr. Thibeault:

As required under Order No. 94-11, item 4, Lockheed Martin Corporation hereby submits this quarterly report to the Regional Water Quality Control Board, Santa Ana Region. The report gives progress made in June, July, and August 2000, regarding the former Lockheed Propulsion Company Site.

**Technical Data Generated**

As part of the Summer-Fall 2000 comprehensive sampling event, City of Redlands wells adjacent to the former Site were sampled in August of this reporting period. TCE and perchlorate were not detected (Madeira Well, Agate#1, Agate#2). Analytical data and back-up for all wells sampled will be given in a separate report following completion of the sampling event.

**Progress Made**

Monitoring of wells down gradient of the Site is continuing.

**Problems Encountered**

No significant problems were encountered during this reporting period.

Should you have any questions or comments, please contact Gene Matsushita at 909.778.6048.

Sincerely,

  
Stephen Evanoff  
Manager, Redlands Project
